## Progress Log

Date	Activity	Comment
2019-10-30	Completed iteration plan 3	All sit together in library to do this
2019-11-04	Completed Documentation : We revised the use case description and sequence diagrams from iteration 2. We finished writing the new use cases and drew the sequence diagrams for iteration 3. We also worked on the code and started implementing the timer.	Worked together in the lab then library
2019-11-05	We all worked on the code trying to implement the new use cases	Faced difficulties together
2019-11-06	We all worked on the code trying to implement the new use cases. We also went back to revise what we wrote for our documentation.	We were unsure about a lot of things and we tried to sort them out
2019-11-07	Worked on the code and try to implement as much as we could	Compiled everything we have and uploaded on github

## Communication Log

Date	Comment
2019-11-04 - 2019-11-07	We discussed everyday what time we are meeting and what we have done so far using emails and facebook messenger group
